

Page 4, line 21, delete "Another object of the" and insert --The--.

Page 4, line 21, delete "is to provide" and insert therefor --also provides--.

Page 5, line 1, change "DISCLOSURE" to --BACKGROUND--.

Page 6, line 20, delete "BEST MODE FOR CARRYING OUT THE INVENTION" and insert therefor --DETAILED DESCRIPTION OF THE INVENTION--.

Page 21, line 1, delete "EFFECT OF THE INVENTION".

IN THE CLAIMS:

Please amend claims 3 and 4 as follows:

Claim 3, line 2, delete "or 2".

Claim 4, line 3, delete "any".

Claim 4, line 4, delete "of claims 1 to 3" and insert --claim 1--.

Add new claims 6-12 as follows:

A' --6. The coating liquid for forming a hard coat film as claimed in claim 2, wherein the composite metal oxide particles have their surface modified with an organosilicon compound.

7. A substrate coated with a hard coat film, which is formed by applying to the substrate surface the coating liquid for forming a hard coat film as claimed in claim 2.

8. A substrate coated with a hard coat film, which is formed by applying to the substrate surface the coating liquid for forming a hard coat film as claimed in claim 3.

A¹
9. A substrate coated with a hard coat film, which is formed by applying to the substrate surface the coating liquid for forming a hard coat film as claimed in claim 6.

10. The substrate coated with a hard coat film as claimed in claim 7, wherein the hard coat film has its surface overcoated with an antireflection film.

11. The substrate coated with a hard coat film as claimed in claim 8, wherein the hard coat film has its surface overcoated with an antireflection film.

12. The substrate coated with a hard coat film as claimed in claim 9, wherein the hard coat film has its surface overcoated with an antireflection film.--

REMARKS

Amendments have been made to the specification in order to place the application in conformance with standard United States Patent practice.

Claim 3 and 4 have been amended to eliminate the multiple dependencies. New claims 6-12 have been added to more fully define the invention.
